

Please do not let an LPFM station replace our current AIR 1 station. It is part of my community as well as many surrounding communities. I have the ability to listen to this channel as I travel across Southern California on many channels, such as 89.5, 89.7, and 90.1. The wholesome, family-oriented programming that is a part of AIR 1 has an encouraging impact on my community, especially the teenagers. If AIR 1 was forced off the air, we would have no alternatives for "clean" radio programming. This channel has a positive effect on this communities' teenagers, including my own. AIR 1 is completely listener supported, which proves how loyal the listeners are.

Thank you for your time,
Shelley Morgan (an AIR 1 listener and parent of a listener)
